The Founder

Salam ! I'm Loubna Ouahidi
JUNE NOTE FOUNDER

As a designer with expertise in corporate communication and over 12 years of experience in the creative and the communication field, I have the knowledge and skills to create effective and visually appealing products.

During the Covid-19 pandemic, I founded June Note, driven by my love of handwriting and the need for a notepad wherever I went. With a lifelong interest in notebooks and stationery, I wanted to create products that would appeal to others as well. That's why I started designing stationery items inspired by the rich culture of Morocco and made in the country itself.

Our offerings, which include a variety of notebooks and accessories, showcase Moroccan culture and make excellent Moroccan souvenirs or corporate gifts.

At June Note, we are proud to offer Moroccan stationery products that we personally love, use, and value.

About us

I have been captivated by handwriting and stationery since a young age. Even as technology has evolved, nothing can replace the spark that handwriting ignites in me. I believe that there are many others who share this passion, and it is my desire to share it with them.

My deep attachment to my Moroccan roots inspired me to create June Note - a Moroccan brand of notebooks and stationery that embodies the cultural richness of Morocco and that we use and value.

It is my hope that June Note will inspire others to rediscover the joy of putting pen to paper and the magic of a well-crafted notebook and stationery items.

Our vision

Our vision at June Note is to provide affordable and well-crafted stationery items that uniquely promote Moroccan culture and heritage. We aim to create a one-of-a-kind look that will appeal to those looking for a touch of Morocco in their daily lives.

We also strive to support the Moroccan economy by sourcing materials and manufacturing locally. Our ultimate goal is to create a line of stationery items that serve as both functional tools and cherished Moroccan souvenirs.”
